A clearer view of your documents.

宏觫拍α：窒亲项目玨鸭

01 PROJECT SNAPSHOT

One workspace for DOC, DOCX and PDF files.

Files stay in your browser. No uploads. No document SDK.

02 DELIVERY PROGRESS

Parser foundation	Complete
Preview workspace	Complete
Advanced layout compatibility	In progress

Rendered with our own PDF parser and Canvas renderer.

Preview notes

This demo contains two pages, vector paths and a bitmap.

The streams use Flate compression and a ToUnicode CMap.

Try the text tab to inspect extracted document content.

Text operators:
Spacing and arrays
A literal (parenthesis) and an escaped \ slash.

Scope

Common text and paths are supported.

Complex fonts, clipping, transparency and forms may differ.

Password-protected files and OCR are not supported.
